

Lafayette Utilities System

WASTEWATER, Special Waste Disposal Service: Schedule S-3

Effective date: Nov. 2017

Ordinance Section: 94-174

(a) Availability:

At the option of the system, special wastes including but not limited to septic tank contents, chemical toilet contents, etc., may be received for treatment in the system's wastewater treatment facilities. Charges for the treatment and handling of these wastes shall be the sum of the following:

(1) Monthly volumetric charge: \$6.15 per 1,000 gallons of water discharged.

(2) Extra-strength charge: Surcharge for excess five-day biochemical oxygen demand (BOD₅) or chemical oxygen demand (COD), whichever is greater, but not both, and total suspended solids (TSS):

The greater of:

BOD₅ surcharge = (actual BOD₅-200) x \$7.23 x no. of gallons/1,000,000 gallons

or

COD surcharge = (actual COD-450) x \$3.61 x no. of gallons/ 1,000,000 gallons

plus

TSS surcharge = (actual TSS - 200) x \$7.23 x no. of gallons/1,000,000 gallons

plus

Special waste handling surcharge:

Forty-four dollars (\$44.00) per load.

(b) Conditions: Such wastes shall be delivered to a point of disposal at such time and under such conditions as determined by the director. Actual BOD₅, COD and TSS content of the waste accepted shall be determined by standard laboratory analysis at the system's wastewater treatment laboratory.
