

# Lafayette Utilities System

(NM continued)

(3) Energy charge:	\$0.02331 / kWh
(4) Fuel charge:	See Schedule FC
(5) Tax additions:	See Schedule X1

## **Power factor adjustment:**

Power factor adjustment will be made when it has been determined that a customer's average monthly power factor is below eighty percent (80%). For such customers, the metered demand kW will be adjusted by dividing it by the actual power factor, and then multiplying the result by 0.80
