

Lafayette Utilities System

WASTEWATER, Special waste disposal service: Schedule S3

Effective date: Nov. 2023

Ordinance Section: 94-174

Availability:

At the option of the system, special wastes including but not limited to septic tank contents, chemical toilet contents, etc., may be received for treatment in the system's wastewater treatment facilities. Charges for the treatment and handling of these wastes shall be the sum of the following:

This rate is effective with the **November 2023** billing cycle.

Monthly volumetric charge:

The monthly volumetric charge shall be \$7.58 per 1,000 gallons of water discharged.

Extra-strength charge:

Surcharge for excess five-day biochemical oxygen demand (BOD₅) or chemical oxygen demand (COD), whichever is greater but, not both, and total suspended solids (TSS), as follows:

The greater of:

$$\text{BOD}_5 \text{ surcharge} = \frac{(\text{actual BOD}_5 - 200) \times \$8.67 \times \# \text{ of gallons}}{1,000,000 \text{ gallons}}$$

or

$$\text{COD surcharge} = \frac{(\text{actual COD} - 450) \times \$4.33 \times \# \text{ of gallons}}{1,000,000 \text{ gallons}}$$

plus

$$\text{TSS surcharge} = \frac{(\text{actual TSS} - 200) \times \$8.67 \times \# \text{ of gallons}}{1,000,000 \text{ gallons}}$$

plus

Special waste handling surcharge:

Seventy-five dollars (\$75.00) per load.

Conditions:

Such wastes shall be delivered to a point of disposal at such time and under such conditions as determined by the director or his designee. Actual BOD₅, COD and TSS content of the waste accepted shall be determined by standard laboratory analysis at the system's wastewater treatment laboratory.

Improving the way you live.
